## REPORT OF THE GENERAL COMMITTEE TO THE GOVERNORS FOR THE YEAR 1928.

The number of in-patients for the year under review has reached a record figure, the total admissions reading 1042. The increase since the year 1902, when the patients numbered 178, has been gradual but steady, and it is most improbable that the limit has been reached; in fact, it seems that modern requirements are likely to demand hospital accommodation on an increasing scale.

To provide for future needs and to safeguard the amenities of the buildings, the Committee has recently purchased 3482 square yards of land in front of the hospital, being part of the land between the Infirmary and the Railway Station. This, with the land bought a few years ago, makes a total purchase of approximately two acres. The Committee are confident that the Governors will approve of this policy.

Last year's report referred to the attempt to have the Infirmary recognised as a Training School for Nurses. The negotiations unfortunately have not been successful, the reason being that the General Nursing Council are not satisfied that the medical side of the work as contrasted with the surgical side is sufficiently developed in the Infirmary. The Committee, realising the importance of this matter, hope to make arrangements whereby the difficulties raised by the General Medical Council can be met.

In many respects the chief development in the course of the year has been the establishment by the Mayor of Bangor of a weekly contributory scheme among the workmen of the city. A similar scheme has been started among the employees of the Penmaenmawr Quarry from which the Infirmary will, it is believed, benefit very materially. The principle of these schemes which are already at work with most successful results in the Wrexham and other districts lies in the arrangement whereby the contributors in return for these contributions in the time of good health are treated free of charge during illness if in need of hospital treatment.

The last report made mention of the Committee's intention to provide an up-to-date X-Ray installation. After some delay, this has been made possible by the magnificent success of the balls organised by an enthusiastic band of ladies and gentlemen at Christmastime, 1927 and 1928. The total net proceeds handed over to your Committee and earmarked for the new installation amounts to £1330. To the Ball Committee and all those good friends of the Hospital who were associated with them in achieving this remarkable success the Commit-

### AUDITOR'S REPORT.

I have compared the above account with the books and accounts of the Infirmary and certify that it is in accordance therewith, and, in my opinion, properly sets out the position of the Infirmary for the year to 31st December, 1928.

H. SENOGLS, F.C.A.,  
*Chartered Accountant*
